

1	Discovery of the Cold Fusion Phenomenon	1
1.1	The first experiments	2
1.2	The experiment by Fleischmann et al.	2
1.2.1	The problem of reproducibility	5
1.2.2	Control experiments with light water	6
1.3	Confirmation of the experiment by Fleischmann et al.	7
1.3.1	Free space	9
1.3.2	Conditions for fusion reactions in solids	9
1.3.3	Results of nuclear reactions (1.1)–(1.3)	10
1.3.4	Comparison of generated energy with energies of other relevant particles	11
1.4	Experiments by Jones et al. and De Ninno et al.	12
1.5	Scandals	14
1.5.1	Taubes reports situation around the discovery	14
1.5.2	DOE report 1989	15
1.5.3	Shortcomings of DOE report	16
1.5.4	The dawn of a science	17
1.6	Experiments with light water H ₂ O	18
1.7	Facts and truth	19
